A quiet wedding was solemnized at the First Presbyterian house in Edmonton on Tuesday, Dec 29, when Rev D. G. McQueen united in marriage, Christina, daughter of Mr and Mrs Donald Smith of Seba Beach, and Percy "Boh" Lawton of Edmonton, the well known teacher at Brightbank.

### FURS AND OVERCOATS

Repaired and Re-lined

Suits Cleaned and Pressed.

PAUL WERNER,

### LOCAL NEWS.

Mr Albert Fischer was down from Evansburg over the week-end.

Mr August Meredith left on Saturday on a business visit to the coast.

Franklin Clark was down from Jasper for the New Year and returned back yesterday.

The Union Ladies' Aid Society met at the home of Mrs R M Outway on Tuesday.

Mr Geo Oppertshauser was a business visitor to the city on Tuesday.

Stony's Normal students returned to Canrose on Monday to be present at the New Year opening classes on the following day.

Stony Plain Town Council meets to-night.

Pete Baron leaves this week on a business trip to Medicine Hat and Lethbridge.

The Schedule running time of the Continental Limited Train No 1 has been changed. It now leaves Edmonton at 12:05 and arrives at Stony about 1 a.m. instead of 12:20 as formerly.

The Annual meeting of the Ratepayers of the Stony Plain Const. S. D. No 32, is called for Monday, January 11th at 2 p.m. in the Town hall, Stony Plain.

The Federal House of Parliament at Ottawa is billed to open for its first session next week.

Jacob Milner of 95th St. Edmonton was shot and killed in his store last Monday night by a twenty-two bullet from unknown hands. A son of the deceased had a store in Stony Plain around 1912 in the building now being used by the Cash Store.

Monday morning's train was some 3 hours late but what was worse is that there was no effort made to flag it and the score or so of people wanting to go to the city had to wait about 8 hours for the next train.

### Anderson-Kullander Wedding

On Wednesday, Dec 30, Miss Anna Kullander, daughter of Mr J M. Kullander of Holborn was united in marriage to Mr Ainer Anderson, now of Spruce Grove. The ceremony was performed by Rev J Whelan at the home of the bride's parent at Holborn and was attended by the people of the entire community. The evening was spent in gay times and rejoicing; the newlyweds entertained everybody in the district to a dance at the Holborn Hall on New years evening and a crowd of some 320 attended and had a good time. Mr and Mrs Ainer Anderson and Mr J M Kullander have moved their residence to Spruce Grove, where the former is in the grocery business.

# Britain Does Not Want Mosul But Is Under Obligations To Protect New Kingdom

Foreign critics and domestic cranks who are fond of decrying Great Britain as a land-grabber must have been puzzled by the dispatches which have been coming from Geneva. In reference to Mosul, says the Edmonton Bulletin.

At the close of the Great War, the Kingdom of Iraq was carved out of territory formerly subject to Turkish rule. As British blood and British money had been spent in freeing the country, Great Britain was rewarded for its efforts by being given a mandate to play the role of guide, counselor and friend—and, incidentally, protector—to the new kingdom.

The Turks denied Mosul, one of the choicest playthings in Mesopotamia, with a population of 200,000, one-third of whom are Christians, the remainder Kurds. Britain appealed the dispute, on behalf of Iraq, to the League of Nations. The league declared that Mosul belonged to Iraq; that it was the business of Great Britain to protect the rights of its ward; and that to make a job of this Britain should extend its mandate for twenty-five years.

The reply of the British representative was that, while Britain would fight the Turks if necessary to protect Iraq, it did not want a twenty-five-year mandate, and would not bind itself to accept one. There the matter stands, with a fairly imminent prospect that Britain will have to fight the Turks to protect the people of a country that it doesn't want and for which it is not even willing to accept a twenty-five-year custodianship.

So far from wanting to grab Mosul, or any other part of Mesopotamia, Britain wants to get out of the whole region—if it could find a way to do so without going back on its obligations to the inhabitants and leaving Christians and Kurds alike to be butchered, looted and murdered by the Turks.

## Canada's Precious Metals

Explorations By Prospectors Uncovering New Undeveloped Wealth

In the production of the precious metals Canada has already taken a foremost place among the countries of the earth, and the output of gold and silver particularly has been large and is still growing rapidly, says the natural resources intelligence service of the department of the interior. But, a glance at a map of Canada and a little study of the areas where mineral development is taking place will show that but comparatively little of the known mineral area has been touched. In Northern Ontario and in portions of British Columbia a large production is being secured, while promising development is taking place in other provinces. The surface has only been scratched, however, and exploration by prospectors and geologists is uncovering much new undeveloped wealth. There is an opportunity in Canada awaiting the mining engineer and capitalist who would develop new mineral areas.

## Advocates Beekeeping

Government Urges the Promotion of Beekeeping in Canada  
"Canada has just finished harvesting a billion-dollar crop from her fields, and returns from her studs, herds and flocks will easily total another half-billion dollars," states a bulletin issued by the department of agriculture.

The bulletin emphasizing these figures is urging the promotion of beekeeping in Canada and announces that large quantities of nectar are annually going to waste in Canada. One beekeeper near Lethbridge, Alberta, produced more honey this year than was produced by the entire province in 1921. In Manitoba the honey crop has tripled in three years and in Saskatchewan the reported crop of 1924 was over five times as large as that of 1919, the bulletin states.

## Beating the H. C. L.

Charles: "How have you been getting along since your marriage?"  
Horace: "Well, we're still eating rice and waiting the old show that was thrown at us after the ceremony."

W. N. U., 1919

## Eradicating Bovine Tuberculosis From Canada

Complete Control of This Scourge in Making Good Progress

In spite of the tremendous cost involved, owing to the wide distribution of the disease, the Dominion health of animals branch is making good progress in the eradication of bovine tuberculosis. The minister of agriculture, in his report for 1923 points out that there are now 1,675 fully accredited tuberculin-free herds in Canada, and 2,100 undergoing the process of accreditation. This accredited herd plan is a practicable, workable and popular one, and with it it is possible to eradicate tuberculosis in herds and to maintain them free from disease provided the owner takes an active interest in cleaning up his herd and protecting it. The branch is now conducting a "restricted area" plan, covering large districts, with many herds, and it is already proving successful. It is possible to test large numbers of cattle more expeditiously and more cheaply by this method than by any other.

There is now an area in the Carleton district in Manitoba with over 15,000 cattle practically free from tuberculosis. Another area, comprising the counties of Humberstone, Chateaugay and Beauharnois in the province of Quebec, was dealt with under the "restricted area" plan last year and 52,641 cattle tested.

## Valuable Lot Bought For Penny

Is Now Site of \$14,000,000 Hotel in Detroit, Mich.

The site of Detroit's \$14,000,000 Book-Cadillac Hotel once sold for exactly one cent. The purchaser was Mary Watson Hudson, a citizen of Detroit, who obtained the plot of ground in accordance with an act of Congress. It happened like this: In 1805 the town of Detroit was practically destroyed by fire. Many persons were wiped out of house and home. To aid the sufferers, Congress made an arrangement by which they could for a very small cash consideration, obtain government land. Mary Watson Hudson bought this particular tract for one cent. Ten years after the lot was purchased by a speculator for \$150.

## Ocean to Ocean in a Ford

Commemorating the twenty-first anniversary of the Ford Motor Company of Canada, J. F. Flickenger, accompanied by a member of the company's publicity department, travelled from Halifax, Nova Scotia, to Vancouver, British Columbia, in a standard Ford touring car, covering 4,794 miles, of which 833 was done on C.P.R. steel tracks. They started out on September 8 and reached Vancouver towards the end of October.

The trip was made entirely on Canadian territory and motion pictures, which were taken along the route, were presented to the Dominion Government for educational purposes. Except where it was necessary to change to flanged wheels for railway tracks, the car made the journey on its own wheels. Mr. Flickenger reporting only three punctures throughout the trip. The Canadian Pacific Railway co-operated to make the trip a success.

## Canada Has Just Entered Upon A New Year With The Brightest Of Prospects

### Marketing Poultry Co-operatively

Shipping Live Poultry From the Coast To Distant Markets

Experience leaves no room for doubt that co-operative marketing, based on sound principles and loyalty, is the very best method. It is pointed out in a bulletin on co-operation and marketing poultry products, issued by the Dominion livestock branch, that the co-operative method presents great opportunities in the marketing of live poultry. The greatest success has been achieved by those who have assembled ordinarily well-fed poultry, taken off the run and shipped them in specially constructed cars, provided by the railway companies, to distant selected markets when the home markets were glutted. This has resulted in satisfactory returns being secured in spite of poor home markets. Last year some fifty cars of live poultry were shipped co-operatively in the various provinces and, in addition, about twenty cars were shipped locally in the prairie provinces. In the case of one car shipped from the Canadian west to New York a report was made of the gain of 1,000 during transit. This wholesale shipping resulted in a great majority of the old stock being cleaned up, and was an influence in making a much finer poultry market in the fall.

The method, which may be obtained free from the publications branch, department of agriculture, Ottawa, described in detail how to organize and conduct these co-operative associations for the marketing of poultry.

### Divers Locate Treasure Ship

Near the scene of the charge of the Light Brigade, divers have located a treasure ship forty feet below the surface of the Black Sea. It is the bulk of the Black Prince, which went down with \$25,000 in gold and silver intended for payment of allied armies in the Crimean War, says a dispatch from Moscow.

The natural resources intelligence service of the department of the interior at Ottawa says:

Canada has entered upon a new year which may be to her one of the greatest in advancement that history shall record. With the brightest of prospects, with records of development unsurpassed, she stands to reap a harvest of progress beyond any yet experienced.

Canada is now being rediscovered. The world is awakening to the fact that in our natural resources we have unconverted wealth beyond the dream of a Midas. Early reports of production for 1925 show material gains in practically all lines of development, while in some of the more important the increases shown have been phenomenal.

In agriculture, without the abnormal conditions created by the war, Canada has reaped crops that have established a record second only to 1915. Her agricultural products are also bringing good prices, so that the farmer will have a reasonable profit above the cost of production.

In mining, the output is increasing, settled labor conditions exist in all provinces, good markets are at hand for the output, and capital is earning a return sufficient to influence the investment of additional funds for further development.

Canada's forests are now the mainstay of the continent, not only in lumber but in pulpwood. Both the east and the west are being called upon for building material by the United States, and Canada, lumber, high shingles and dimension timber finding a ready market.

More and more is the new spirit of industry of the world being centered in Canada, and particularly is this the case with the North American continent, where Canada has wrested from the United States the premier position in newspaper production. The paramount position of Canada in this industry is influencing many of the larger organizations across the line to remove their activities to Canada, with the resultant increase in employment for labor.

Canadian fisheries were very successful during the year just past and the sea fisheries of both east and west coast report excellent yields with good markets for their output.

Canada last season was visited by many thousands of tourists. They come from all parts of the world and carried away impressions that will not only be forgotten. The hearty welcome they received is evidenced by the stories of their experience appearing in their local press and outing publications. The coming season will witness a still greater inundation of these visitors. As a general rule they are free spenders, and they are good advertisers. Canada needs and is rapidly earning the goodwill of the world, and in the coming year in production, enterprise, energy, and in the coming to our national guests, the tourists, let us still further establish the fact that Canada and Canadians will take second place to no country or no people.

## Saskatchewan Corn Growers

Convention For 1925 To Be Held At Estevan

At a meeting of the executive of the Saskatchewan Corn Growers' Association, it was decided to hold the 1925 convention on November 17 and 18, in the town hall, Estevan. Negotiations will take place with M. P. Tullis, secretary of the Provincial Registered Seed Growers' Association for the supplying of northern grown corn seed of various varieties to prospective growers for next year.

The Prairie Nurseries, Limited, of Estevan, have donated a cup, valued at \$200, which will be presented to the grower giving the best showing of Yellow Flint corn, at the exhibition. The cup is a permanent one, but a small replica of it will be presented to the winner each year.

It is expected that the corn show of 1925 will be unusually successful.

In one family of 12 children, they all have the same beginning with "L". The names are: Lester, Lydia, Lila, Louis, Lew, Leonard, Lillian, Luther, Louis, Lucile, Lester and Lawrence.

## A Tonic of Rare Value SCOTT'S EMULSION OF PURE COD-LIVER OIL, Rich in Vitamins, Rebuilds Strength

### WORLD HAPPENINGS BRIEFLY TOLD

The next and final session of the Alberta Legislature before a general election will be called to meet, it is expected, about the first of February.

Operating incomes of the Canadian railways for the ten months ending with October was well ahead of the corresponding period last year.

General Ludendorff, Germany's wartime quartermaster general and now leader of her ultra-nationalists, has taken up the cause of prohibition.

Montrealers use an average of 71,000,000 gallons of water a day, according to figures just published by the water bureau.

Jules Felenieux, former French ambassador at Washington, died Dec. 28. He was a grand officer of the Legion of Honor and was born in 1845. He had also been ambassador at Madrid.

A campaign has been started by Mrs. J. D. Henderson, Washington's grand old woman, to get the women's skirts and to stop the modern flapper from smoking cigarettes.

The method by which the ancient Mayas counted time based on the circuit of the planet Venus in the sixth century, B.C., has been discovered by Dr. Herbert Spinden, of Harvard University, it is announced.

The national death rate in the United States is placed by the commerce department at 13.9 per 100,000 of population, on the basis of figures for 1924, as compared with 12.3 in 1923; 11.8 in 1922, and 11.6 in 1921.

A new protein food, made from beet serum, which has all the characters of white of eggs, has been developed by Professor J. W. M. Dunker, of Harvard. The new food is said to be rich in energy, readily digested and entirely palatable.

Near relatives of indigent persons receiving relief from the Social Welfare Commission at Winnipeg, will be compelled to contribute to their support, if a bill to be presented to the next session of the Manitoba Legislature is adopted.

Manitoba's government-owned telephone and radio systems have enjoyed a profitable year. The radio branch, which operates station CKY, is declared to be the only known station on the continent to have cleared expenses during the year.

The colors of the Jewish battalion which fought during the war with Great Britain's forces against the Turks for the liberation of Palestine have been deposited in the great synagogue of Jerusalem with impressive ceremonies.

### Received Wonderful Gift

Blind From Birth Two Virginia Girls Had Sight Restored Day Before Christmas

Two mountain girls, blind since birth, walked from a Huntington hospital, Dec. 24, and marvelled at the wonders they gazed upon. Their sight had been restored, a Christmas gift from their mountain neighbors and a Huntington surgeon.

Neighbors interested Dr. C. M. Hawes, of Huntington, in their cases and the doctor said he was willing to perform the delicate operation necessary, without cost.

The neighbors raised a fund to defray hospital expenses.

Any fool can talk, but only wise men know how to think.

## CHILLS!

Are the forerunners of severe colds and grippe. Rub the chest and back with Minard's. Bathe the feet in Minard's and hot water.

W. N. D. 1910

The New Costume Blouse

One of the new silks having an attractive border design has been chosen for the fashioning of this charming blouse. The new trimming feature of fine tucks is introduced in the groups placed at the hips either side of the front and back, emphasizing the blouse effect, and right now let me tell you that the smartest way of wearing your tucks is on the inside of your frock with just the back of the seam showing on the outside. The appeal of this blouse lies in the length. Frequently one has dresses that are worn at the top and around the hips, yet quite good at the lower edge. The waistline may be cut off, making a slip over which this blouse may be worn, making a charming costume. The full sleeves are gathered into narrow bands at the wrists, and a collar with long ends is tied in the front. No. 1246 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2 1/2 yards 40-inch, or 2 1/2 yards 44-inch material. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

### How To Order Patterns

### Swiss Colonization in Canada

Sending Out Questionnaires to Swiss Working on the Land

The Swiss Settlement Society which, as our readers remember, was formed for the purpose of establishing Swiss immigrant farm help in Canada as settlers on their own account in settlement colonies to them, is sending out at present an interesting pamphlet and questionnaire to the Swiss working on the land.

The questions asked aim comprehensively at those points of the problem which interest the prospective settler most and which will enable the society to give him intelligent assistance in his quest.

Pamphlet and questionnaire can be obtained from Fritz Beck, Secretary of the Society, 11 Bishop St., Montreal. Western address: Care of F Immigration Hall, Winnipeg.

### Alberta Poultry Pool

A poultry pool is now in operation in Alberta under the name of the Alberta Co-operative Poultry Producers, Limited. Poultry products will be marketed through the Provincial Government's marketing service, which has offices in Edmonton, Calgary and Lethbridge.

### Time To Go Fishing

The correct time to go fishing does not depend so much on the moon, the sun, the direction of the wind or even the condition of the water. The correct time to go fishing is when housecleaning starts.—Toronto Telegram.

### A Tribute To Chamberlain

Lozano Treaty the Biggest Stone Yet Laid in the Temple of Peace

Says the Manchester Guardian:

"This country has long prided itself on the little rancour that there is in its political life. The storms and passions of debate quickly subside among the courtesies of personal intercourse between people who do not always impute base motives to those with whom they disagree. But the dinner which was given in Mr. Chamberlain's honor, and which included people distinguished in a variety of the walks of life, was not exactly of this character. It was a tribute as rare as it was well deserved even in a country where friendship between political opponents is not rare. It marked not only the esteem of his opponents but their belief that he had handled an exceedingly delicate piece of business with conspicuous credit to himself and his country. For his share in the making of the Lozano treaty he has won almost universal and unqualified admiration. The Lozano treaty may not be perfect, but it is the biggest stone laid in the Temple of Peace, the foundation of the League of Nations. And among the craftsmen who fashioned it Mr. Chamberlain brought just the temper, judgment and character that were needed. He was fortunate in his collaborators, as he has generously acknowledged, but they were certainly not less fortunate in him."

**For Rheumatic Pains.**—The pain and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammation, sprains, scratches, bruises and sprains, and other human ills and the lower animals.

### Messages For Far North

Mounties in Arctic Circle Received New Year Greetings Over Radio

The Mounties in Baffin Land and Ellesmere Land, above the Arctic Circle, had a New Year's Eve reception. The colorful dress uniform of the Royal Canadian Mounted Police were not necessary, for the reception was merely the reception of special messages from families and friends broadcast by pre-arrangement by Westinghouse, station KDKA at Pittsburgh; WGB at Springfield; KYYW at Chicago, and KFKX at Hastings.

The broadcast took place Thursday night, December 31, immediately after the relaying of the Arlington time signals.

In the old days, the Canadian police posts usually did not hear from civilization until the middle of the next summer, when the supply ship came to them with mail and provisions.

Now, all the posts have their radio sets and listen to the Canadian and United States radio stations all through the long winter.

The messages were sent by the families of the police to the police headquarters in Ottawa and forwarded for transmission.

### Plants Have Muscular Power

New and definite evidence that plants have muscular power has been announced by Sir Jagadish Chandra Bose, the famous Hindu scientist of Calcutta, who already is responsible for many valuable discoveries in connection with plant life.

## OUR CROSSWORD PUZZLE

### Horizontal

1—Liquid.

5—Given to pleasure.

12—A chair.

81—Forward part of a ship.

83—Lilo.

86—Pronoun.

88—Pronoun.

90—Indefinite article.

### Canadian Granite For War Graves

Fifteen-Ton Granite Slabs To Be Shipped to Battlegrounds of France and Belgium

Embellished with fifteen-ton granite slabs from Stanstead, Que., seven of the eight miniature parks that have been designed to cover shell-scarred areas in France and Belgium, will be completed this coming summer according to Brig.-General H. T. Hughes, of Victoria, B.C., chief engineer of Canadian battlefield memorials in those two European countries.

"We thought for the sake of sentiment," says Brig.-General Hughes, "it was a little bit of Canada would be a good thing to introduce into the memorials to Canadian soldiers who fought over there. Six of these blocks of granite will be shipped in January. On the stone will be traced inscriptions stating why we have selected the place in which the slab is laid as a suitable area for a Canadian war graves site. The wording will be in French and English.

The general will return to France and Belgium next month.

### Turkey and Russia Cannot Join League

Prevented by Terms of Neutrality Contained in Treaty

One point made in the discussion of the recently signed Russo-Turkish armistice pact is that it apparently prevents both countries from joining the League of Nations, inasmuch as under the terms of neutrality which the treaty establishes neither country could allow passage through its territory of troops acting on behalf of the League of Nations, action which the league has had a rupture.

### Silver Black Foxes

Thirty-five cases, containing 103 black foxes, the largest shipment yet arriving in Western Canada, were unloaded lately in Saskatoon from Fort Elgin and Fredericton, New Brunswick. They will be used for breeding purposes at the new Prairie Silver Black Fox Farm there.

When you see a man standing with his wife before a window full of hats you know she is boss.

### Answer to Last Week's Puzzle

### Growth Of Poultry Industry

Two Thousand Turkeys Shipped East From Manitoba For Holiday Trade

One of the most interesting developments of marketing in Manitoba during the past five years, has been the unusually rapid growth of the poultry industry. Whereas a few years ago it was customary for this province to import poultry products to supply its own needs, Manitoba is now exporting and, during the early part of December, the province shipped to Ontario alone two thousand turkeys to meet the Christmas demands of that market.

### Her Heart Palpitated

She Had Fainting Spells

Mrs. J. Wilson, Fort George, N.B., writes: "I suffered from palpitation of the heart and fainting spells, and, at times, I could not get left alone. I was so nervous."

My trouble was caused from overwork and worry, having been left alone with a large family. I had tried everything, without any relief, but I knew, to-day, that I would have been a nervous wreck but for your wonderful

These Pills are for sale at all drug stores and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

## FOR RESTORATION WORK ON RANGE LANDS OF WEST

Ottawa.—Leonard B. Thomson, of the Alberta department of agriculture, Edmonton, has been appointed field headman with the federal department of agriculture; and Sydney E. Clarke, at present on the university staff at Rochester, Minn., has been appointed assistant agronomist. Announcement to this effect is made by the department of agriculture recently.

These appointments, which have been made by the civil service commission, follow representations made some months ago to the department by organizations representing the ranching interests of Western Canada that some experimental and demonstration work should be carried on by the government in range areas.

Such work, it was represented, was particularly necessary with respect to the reseeded of abandoned home-lands or other cultivated lands, the study of varieties and reproductive peculiarities of grasses in grazing areas, forage crop problem for the ranchman, and the effects of deferred grazing in relation to the restoration of the carrying power of range land.

Mr. Thomson will make a study of cultural and other methods looking to the restoration of the range while Mr. Clarke will conduct a study of grass varieties and their habits. A comprehensive schedule of work has been laid out, which includes a preliminary survey of range lands in the west.

## Says Wheat Advance Was Necessary

Not Retaliation For Rubber Prices  
Assert U. S. Millers

Chicago.—Economic laws and not retaliatory measures are responsible for an increase in the price of flour in Great Britain, millers of the United States have replied to British suggestions that the wheat merchants of this country are seeking revenge for Britain's rubber monopoly.

The present wheat price increase has its immediate cause in the wheat shortage in Argentina, said J. Crosby, president of the Washburn-Crosby mills at Minneapolis. It was explained that the effect was world wide, and not confined to Britain, which was surprised by an unexpected rise of two shillings in the price of a 280-pound sack of flour.

Cables from London said that the flour increase had aroused considerable adverse comment because of the fact that the government statistics indicated a world surplus of wheat, and that the subject would be inquired into by the Master Bakers' Protective Society.

A member of this organization was quoted as saying that: "American wheat merchants, knowing that the British dealers have the whip hand in rubber, are retaliating in wheat."

## Giant Meteor Falls

Flashes Across Sky In Brilliant Illumination In Eastern Canada

Ottawa.—In the opinion of Ralph Delury, Dominion Government astronomer, an unusual phenomenon witnessed in the northern skies by Rev. E. G. May, rector of the Anglican Church at Chelsea, Que., and other residents of that district, may mean that a huge meteorite had dropped to earth somewhere in this district.

Rev. Mr. May saw a star or comet fully the size of the eastern star, which flashed across the sky in a brilliant illumination, and disappeared over the rim of the hills, which were fully lit up by the reflection. After it had passed beyond the horizon formed by the hills, a narrow band of brilliant light remained visible for fully five minutes, to gradually disappear as though dispersed by wind.

## To Pay Direct

Ottawa.—The British Government will pay pensions to its war veterans now resident in Canada direct after March 1 instead of through the Canadian department of civil re-establishment. This applies also to Canadian who served in British units and draw pensions and other awards from the Imperial Government.

W. N. V. 1610

## Homeless Children Arrested in Moscow

Range of Waifs Stage Holdups in Russian City

Moscow.—Four boys, aged 12 to 15, have been arrested in Moscow for organizing a raid by homeless children on the Lubyanka Christmas market at Moscow. The attack occurred at noon on the day before Christmas when, at a signal, thirty street waifs began plundering the market, which is located in a square in front of the Cheka headquarters.

A riot developed of such proportions that mounted police were called. The police reports the arrest of another group of 18 homeless children found living in a frozen sewer emptying into the Moscow river in the heart of the city.

The ages of the boys and girls ranged from 10 to 16, and the leader was a 15-year-old orphan. The children were arrested after staging numerous robberies on the river embankment.

A week ago ten youthful kidnappers, all under 16, were arrested for kidnapping better dressed children and stealing their clothing before liberating them near police stations.

## Mennonites Returning

Are Not Satisfied With Conditions in Mexico, Says Member of Party

Montreal.—Mennonites are not satisfied with the conditions in the Rosario, Mexico, settlement, to which they emigrated en masse from Canada, and are returning to the Dominion, according to Hans Stedler, a member of a party of 250, who arrived here from St. John.

They are going to Mennonite settlements in Manitoba, Alberta and Saskatchewan.

## Serious Floods in Roumania

Over Hundred Reported Drowned and  
Thousands Are Homeless

Vienna.—Thousands of persons are homeless, more than a hundred have been drowned and other hundreds are fighting for tree and house-top refuge, in the flooded Transylvania section of Roumania, according to dispatches from Budapest.

A sudden thud, following a series of heavy snows, turned rivers into torrential lakes, overflowing large areas.

## PLENTY OF CASH NOW AVAILABLE FOR INVESTMENT

Toronto.—There is in Canada today \$25,000,000 more money available for general business purposes than usual at this time of year. Sir John Aldred, president of the Canadian Bank of Commerce, said today. "There is plenty of money available to finance new undertakings needed for the development of Canada. The Dominion is in splendid shape to go ahead. Manufacturers, in practically all lines and commercial houses in general have this fall reduced their indebtedness to an extent impossible for several years past. All the banks show the same thing—a great reduction in commercial loans and a big increase in bank investments in stocks and bonds."

## Alberta Coal For East

Railway Prepared to Resume Shipments At Any Time

Toronto.—The Canadian National Railways is prepared to commence the shipment at any time of the 6,000 or 7,000 tons of Alberta coal which is the balance of the 25,000 tons agreed upon in the summer at the \$7 a ton freight rate, Sir Henry Thornton, president of the C.N.R., has informed the Ontario Government in replying to communications on the matter.

As to the suggestion that the special rate of \$7 should be extended to further supplies of Alberta coal over the 25,000 tons, Sir Henry replied, according to Hon. Charles McLean, minister of mines, that he did not think there was any immediate necessity for moving an additional amount, but that he was keeping in close touch with the situation.

## Allies Quit Bulgaria

Sofia.—Premier Tsankoff has been notified by the allied representatives that the allies will withdraw their military control commission from Bulgaria in the immediate future. This decision has been taken as the result of a report to the council of ambassadors that all the military provisions of the peace treaty with Bulgaria have been complied with.

## Country More Prosperous

Sir John Aldred, President of the Canadian Bank of Commerce.

## Law Protects Younger Sons

All Share Equally in Britain When Father Dies Intestate

London.—The new act dealing with the administration of estates, the owners of which die intestate, comes into effect in the New Year and is almost revolutionary in its effect. It abolishes provisions existing since the Victorian days in Britain in connection with estates where the owners leave no will and which furnished them without number for the authors of cheap novels and dramas in the Victorian days as the much injured younger son no longer will behold his older brother heeling all the paternal acres.

The elder sons, under the new law, will possess no advantages over their younger brothers when the father dies without having made a will.

Another feature of the new act is that the preference of males over females which has been the law in connection with estates left by men who died intestate, is done away with. Henceforth, males and females of the same degree will rank equally in the division of the estate. The new act affects only the estates of those who died intestate. The act is intended to simplify the transfer of freehold land and houses where the owner dies intestate.

## Marriage Of Prince Being Discussed Again

Niece of Sweden's King Is Latest  
Guess of British Society.

London.—British society is again speculating as to whether a possible bride has finally been found for the Prince of Wales.

The speculation follows an announcement that Princess Astrid, niece of the King of Sweden, who is immensely popular with King George and Queen Mary, is to be a guest at Buckingham Palace as soon as the period of court mourning for Dowager Queen Alexandra ends.

Astrid, who is twenty, is one of the prettiest younger members of European royalty. She has attractive personality, is a splendid dancer, is fond of country life and sports and is well agreed in domestic science. She is a daughter of Prince Charles and Princess Ingeborg, being a grand niece on her mother's side of the late Dowager Queen Alexandra.

## Winnipeg-Toronto Daily Air Service

Company Expects to Inaugurate Line  
About June 1

Pulaski, Pa.—Asked about the commercial air service which the organization he represents as executive secretary plans to start between Toronto and Winnipeg, J. M. Clark said it was expected to inaugurate the line about June 1. He said the service probably would be inaugurated with the use of nine planes, all of a late type, make one trip daily each way and carry both passengers and freight.

## Extend Quota Law

Montreal.—According to Commissioner Harry Landis, of the United States immigration office here, there is a strong movement on foot both in Canada and the United States, to make the quota law apply to both Canada and Mexico, the many as to other countries.

## A WORLD-WIDE WHEAT SELLING PLAN IS MOOTED

Winnipeg.—The conference of Co-operating Marketing Associations, which was initiated by the Canadian wheat pools, and was first set for November 19 at Regina, Sask., and was postponed, will be held in St. Paul, Minn., Feb. 16, according to word received here. Four countries will be represented—Canada, the United States, Argentina and Australia. Great Britain may also send a delegate.

It has been intimated that at this conference a move will be made to organize a world-wide wheat marketing association. It is understood that the Canadian wheat pools have been making a thorough investigation into the marketing situation in various countries and the results of the study will be placed before the conference. Reports here state that the North Dakota Wheat Growers' Association will be largely represented at the conference, as well as the three Canadian prairie wheat pools.

## General Election Votes

More Electors Cast Votes in 1925 Than  
In 1921

Ottawa.—An analysis of the popular vote cast in the general election of October 29 reveals that approximately 71.1 per cent. of those persons on the electoral list exercised the franchise. In the 1921 general election the estimate was that 79.3 per cent. of eligible voters exercised the franchise. The popular vote of the election this year was 3,157,571. This is 85,737 more than the popular vote of 1921. It is assumed by electoral officials that the numbers on the eligible lists have not changed materially since 1921 when there were 4,352,310.

By provinces the total votes are as follows: In Prince Edward Island, 49,490 votes were cast to return four members to parliament; in New Brunswick, 151,650 votes to return 11 members; in Nova Scotia, 220,687 votes to return 14 members; in Quebec, 802,558 votes were cast to elect 65 members; in Ontario, 1,220,111 votes were cast to elect 82 members; in Manitoba, 163,296 votes were for 17 members; in Saskatchewan, 198,504 votes for 21 members; in Alberta, 160,609 votes for 16 seats; in British Columbia, 132,713 ballots cast to elect 15 members; in the Yukon there were 1,250 votes for one seat.

## Bolshevik Troops Cross Afghan Boundary

British Foreign Office Is Watching  
Situation Closely

London.—Considerable importance is attached here to the recent crossing of the Afghan boundary by Bolshevik troops. Exact details are lacking, but it is understood that several Afghan officers and many men were killed in an unexpected attack by Russian border troops in a district always acknowledged to be part of Afghanistan.

The importance of the affair lies not in the fact that blood was shed, but in the circumstances that an essential part of Great Britain's policy regarding India is the absolute sanctity of all the Afghanistan and other northern frontiers. Cabal newspapers report that bitter indignation exists among the people of Afghanistan.

It is an open secret that the Soviet authorities regard the desolate mountainous Afghan frontier as their pathway to India and for this reason the British foreign office is watching the situation closely.

## New York's Population

Albany, N.Y.—New York City has a population of 5,672,356, an increase of 253,363 during the last five years, census figures made public by the secretary of state's office here. The rate of increase is about the same as that of the period between 1910 and 1915, but below the rate of growth in the five years preceding 1920.

## Urge National Meet

Winnipeg.—The calling of a national Trade Parliament along the lines of a conference "as soon as it is deemed expedient by the National Boys' Work Council" was urged in a feature resolution adopted by the fourth Manitoba Trade Boys' Parliament here.

## THE REGINA LEADER RUGBY TROPHY

At least an annual playoff for the Canadian junior rugby championship has become a reality. The materialization was aided by the donation of a championship trophy by The Regina Leader. Above is the first photograph of the trophy which is described as one of the finest pieces in any line of sport. The Regina pair fell short of it by two points when they lost the 1925 final in Montreal two weeks ago to the M.A.A.A. team who therefore have the distinction of being the first holders. Presented through the C.R.F.U. it is to be a permanent trophy.

Wash with Zam-Buk Medicinal Soap.

## Colonization and Immigration

The continued development, progress and prosperity of Canada is dependent upon a continuing increase in population, and having now entered upon the second quarter of "Canada's Century" it is of prime importance to themselves and their country that all Canadians take a keen and active interest in promoting this, the Dominion's first and greatest asset.

It has, however, become increasingly evident during the past few years that the problem that confronts Canada in the field of immigration is not so much immigration itself as colonization. If the Federal Government and Parliament see fit to take down all the bars to immigration there is hardly any question but that very large numbers of people from European countries would come to Canada. But it is open to serious question whether an unrestricted inflow of people would be in the best interests of the Dominion, or of these incoming people themselves.

Neither Government and Parliament, nor Canadians in general, are of the opinion that such an unrestricted influx of people would be desirable. The opinion still prevails, and with good reason, that there must be selection of immigrants, although it is now recognized that there can well be, and ought to be, some relaxation of the restrictions imposed during those years immediately following the war.

While, therefore, immigration regulations will undoubtedly be modified, and efforts put forth to secure a larger number of people in this and succeeding years, the main effort of the Dominion Government, transportation companies, and all bodies primarily interested in the settlement of our vacant areas, will be in the direction of successful and therefore permanent settlement: in a word, the promotion of colonization rather than the mere encouragement of the immigration of people to Canada.

Past experience establishes the wisdom and necessity of such a policy. Carrying it into effect, however, cannot be left solely to Government. It will call for the active interest and participation of the whole people of Canada, and may well constitute one of the major activities of all organizations such as Boards of Trade, Canadian Clubs, the various service clubs, farmers' organizations, churches, Community Clubs, and all kindred organizations.

Successful colonization means the placing of new settlers in districts where their labors will be crowned with success, where their surroundings and neighbors will be congenial, where they will not lack the essentials necessary to the making of happy, prosperous, contented homes.

To cite one example: Late in 1924 the Swiss Settlement Society was organized in Canada under a Dominion Charter with headquarters in Montreal, with the object of encouraging Swiss settlement in Canada. This Society, in its first year, has been markedly successful in securing the support, financial and otherwise, of prominent people throughout Canada, in Switzerland and the United States. It is engaged in getting in touch with all Swiss now resident in Canada and ascertaining the measure of their success here, the problems which confronted them and how they were overcome, the problems and difficulties still to be overcome. The Society aims to help them, but at the same time to make known to prospective immigrants from Switzerland the actual experiences and successes of their countrymen in Canada; and to assist such new immigrants to locate in desirable communities on arrival here and to help them in all possible ways to succeed. That is, there is an organized Society to which all Swiss in Canada can turn for helpful advice and assistance.

Reference may be made to another development which is bound to have a permanently beneficial colonization effect. In its peace-time work the Canadian Red Cross Society aims at the improvement of health, the prevention of disease, and the mitigation of suffering. In its efforts in these directions it has taken particular notice of the need of nursing care for expectant mothers and children, and sick and accident cases among the new settlers in remote and pioneer districts where doctors are few in number and far distant from the settlers' homes; and where as yet the population is too small to warrant the establishment of hospitals. In such districts the Red Cross is establishing Nursing Outposts with fully qualified nurses in charge. Over thirty such Outposts have now been established by the Red Cross in Alberta, Saskatchewan, Manitoba and Northern Ontario. Others are being opened as rapidly as the funds of the Red Cross will permit, and only recently an English nursing association donated funds for the equipment of two additional Outposts in Saskatchewan in districts into which British settlers are now going.

These are real moves calculated to promote permanent and successful colonization. Such societies as the two cited, and others that might be mentioned having the same object in view, are deserving of the cordial sympathy and hearty support of the people of Canada. They are helping to make Canada, and to bring about the realization of the prophecy that the "Twentieth Century belongs to Canada."

Successful colonization means not only retaining the settlers who do come, but it means larger immigration because an ever increasing number of people will come to participate in the success of these others. Thus will Canada grow and prosper; it ought to do and as Nature by her varied and bountiful gifts intended it should.

## Children Cry for

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind, Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## Secret Of The Air

### Dutch Passenger Monoplane Vanished

Completely, Leaving No Trace  
A group of "air express" pilots in London, some about to begin and others having just completed flights at 100 miles an hour between London and the continent, were discussing the strangest things that have happened in aviation since men first flew.

They agreed that for sheer mystery no case equals that which threw a gloom over the London air station not long ago.

A Dutch passenger monoplane ascended one afternoon to make its scheduled flight to Amsterdam. An experienced pilot was in charge, and the weather was not unfavorable. There were no circumstances to cause anxiety.

Yet from that day to this there has been no news of the machine. It simply went up into the air and vanished. It never reached Amsterdam. It never landed anywhere.

The only theory experts can advance is that while on the cross-channel flight the engine failed and the plane fell into the water. Unfortunately, it was not fitted with wireless, so the airman had no chance of broadcasting an "S.O.S."

It is strange, however, that no traces of the machine were ever found. Nor were any of the bodies retrieved.

## THE CHEERFUL WOMAN

Is One Who Has the Rich, Red Blood of Good Health

The fact that one woman is bright-eyed, rosy-cheeked, strong and cheerful, while another is pale, weak and depressed, is due more often than otherwise to the condition of the blood. The way to remedy this depression is to build up the blood, and for this purpose there is no other tonic can equal Dr. Williams' Pink Pills. A case in point is that of Mrs. Melvin A. Gray, 1241 West 1st Avenue, B.C., who says:—"About two years ago I was a very sick woman. I seemed to be wasting away, and getting thinner all the time. I grew so weak that the doctor sent me to the hospital, but the treatment there did not help me and I returned home. Then I tried a number of tonics with no better results. At this stage my mother came to me, and as she is a firm believer in Dr. Williams' Pink Pills, she started me on this medicine. I can only say that it did wonders for me. I began to get new health and strength after I had taken a few boxes, and day by day this improvement continued until I was again well and able to do all my housework, and I have not had a sick day since. I cannot recommend your pills too highly and urge those who are looking for health and happiness to give them a trial."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## New Design For Aeroplane

Machine With Central Engine Room Being Built As Experiment

An aeroplane has been designed, the chief feature of which is a central engine room. As it is an experimental type, only two 450 h.p. Napier Lion engines have been fitted, but, pursuing the same line of design, the experts declare that there is no reason why half-a-dozen or even more engines should not be fitted into a machine able to take them. They see in it the forerunner of the type of air liner which will, when flying has become more fully developed, be plying regularly between London and New York. This experimental craft, which is known as the Bodin-Napier, has been under design and construction for between two and three years.

## Discover New Metal

Prof. Bohr, well-known German research worker in the domain of the atom, claims to have invented a new metal called hafnium. The element is produced in the form of a dark gray powder, and, according to his discoverer, is specially suitable for making various parts of radio sending and receiving sets.

## SUNDAY SCHOOL LESSON

JANUARY 10

### FIVE MEN BELIEVE ON JESUS

Golden Text: Behold, the Lamb of God; that taketh away the sin of the world! John 1:29.

Lesson: John 1:19-51.

Devotional Reading: Isaiah 53:4-12.

### Explanations and Comments

The Winning of Andrew and John, verses 36-39.—On the morrow after his conversation with the deputation of priests and Levites from Jerusalem who came to ask if he were the expected Christ (verses 18-23), John the Baptist, the herald of the Christ, pointed out Jesus to his disciples as the Lamb of God that taketh away the sin of the world (verses 29-34). Again, on the morrow after that, two of the Baptist's disciples, Andrew and probably John, were standing with him when he saw Jesus in the distance and said to them, "Behold, the Lamb of God!" (The word Lamb is used for Christ more than seventy times in the Book of Revelation and indicates sacrifice.) The Baptist's words suggested to the disciples that they followed him for great things.

When Jesus turned and saw the two following him, he said to them, "What openeth thine eyes? Because he wished to fill it," observes an ancient writer.

The Proven Asthma Remedy. Since asthma existed there has been no lack of much heralded remedies, but they have proved almost all worthless. The ever-growing reputation of Dr. J. D. Kellogg's Asthma Remedy has given it a place in the field of medicine which no other can approach. It has never been pushed by sensational methods, but has simply gone on effecting relief and making new converts.

## Canada First

Leads the World in Increase in Agricultural Production

"Of all the agricultural countries of the world, Canada stands first as regards ratio of increase of production in the past twenty-five years," said Dr. J. H. Grisdale, deputy minister of agriculture. Wheat production in 1925 was over 900 per cent. greater in yield than in 1900; oats, 200 per cent.; barley, 600 per cent.; rye, 600 per cent.; forage, 200 per cent.; hay, 200 per cent.; horse breeding, 125 per cent.; beef breeding, 70 per cent.; swine, 38 per cent.; and poultry, 180 per cent.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Would Revise U. S. Immigration Laws  
Revision of the United States immigration law to permit entrance in excess of quota limitations of skilled agriculturists, was urged before the house immigration commission by Hugh McCrear, of Wilmington, N.C., who declared that his nation would produce many benefits to farming.

## What Pretty Girl Did for Sick Stomach

Mrs. F. Rick of Brooklyn, N. Y., says:—"I don't know what the cause was, but every few days my stomach would feel all bloated up with gas, my appetite was poor and I felt sick to my stomach—so I got nothing of head-ache."

"I never thought of using Carter's Little Liver Pills, until nothing seemed to help. After using Carter's I felt relieved at once—and now as soon as my stomach 'talks' back I answer with Carter's and have the last word." Recommended and for sale at all drug stores. 25c.

## Alberta Corn Growers

Acreage Devoted to This Crop is Rapidly Increasing

Recent successes of Medicine Hat corn growers at the provincial exhibition held in Lethbridge, amply prove the suitability of this district for corn growing. The acreage devoted to this crop in Alberta has made great strides in recent years. In 1913 only 900 acres in Alberta were planted to corn. In the following year the acreage increased to 7,000; in 1922 to 15,000; in 1923 to 53,900; and last year to 68,000.

For Both House and Stable.—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

There is one good thing about the man with trouble on his mind. He never breaks into your office humming jazz tunes.

Whether the corn be of old or new growth, it must yield to Holloway's Corn-Remover.

Luxurious Awards Completed  
Luxurious awards have now been completed, and victims of the sinking of that ill-fated vessel, May 7, 1915, 295 in number, have been allotted the sum of \$12,146.05.

## Banff Stages Big Winter Classic

A world-championship Dog Derby to the "Top of the World and Back" will be run for the first time in the history of dog-muzzling at the Banff Winter Carnival this year, according to plans now being made by the Carnival committee under President Standish. The course from Calgary to the Great Divide and back to Banff will be the longest dog race in the world and will exceed the famous Paa Derby by 23 miles. The Strongheart Trophy and one thousand dollars will go to the winner.  
From Calgary the starting point, the dog teams will travel to a height of 5,300 feet over a distance of 132 miles. This point is the Great Divide, the backbone of the North American continent, which in the Canadian Rockies separates Alberta from British Columbia. The contestants will then return to Banff via Lake Louise, completing the distance of 178 miles. The course lies over the most rugged scenery in America and will be the most unique run ever made by dog and sled.  
This world-championship dog derby will be made an annual event at the Banff Winter Carnival from now on. Among the famous mushers who have already signed up for the race are the Mike Mills with his team of famous all blacks, Harry Knight, the 18-year-old boy who has twice already won the Strongheart Trophy and will have to win it only this year to come into possession of it; Jim Boyce, Fred Popper, George Child and others of less note. The end of the race will be celebrated by a big buffalo barbecue at Lake Minnewanka, seven miles from Banff.

A special train will run from Calgary to Banff to allow those who saw the teams start to view the finish.

The Banff Winter Carnival, which has now become one of the big Canadian winter classics, will extend over two weeks this year, from February 3 to the 17th.

Another feature of this year's events will be the skumping contests over the new, enlarged hill, which will be participated in by Neil Nelson, the Canadian Pacific Railway brakeman who holds the world's championship in both the amateur and professional classes.

To enable the winter visitors to Banff to see something of the scenery, Bill Potts, famous Rocky Mountain guide, will bring in twenty horses to be used to pull skiers and tobogganers to scenic points in the surrounding mountains.

Other features of the ice carnival will be the ladies' hockey championships and skating contests for all classes; swimming contests in the famous hot sulphur pools; ski and ski-joring races and the packing and saddle contests by the famous Rocky Mountain guides of West Canada. Dog teams will be used to taxi the visitors instead of the familiar Banff summer automobiles. These teams will be provided by the Brewster Transport Company. The city of Calgary having this year discontinued their own carnival to join forces with the Banff classic. It is expected that the coming Banff Carnival will be the biggest in the history of the Rockies.

#### Stony Plain and District.

Mr J K McLean of Strathcona spent the New Year holidays with Mr and Mrs N M Carmichael.

Miss Lillian Linburg of Camrose and Miss I Lawton of Edmonton were the guests of the Miss McKinlays at Comet over the week-end.

There will be a dance at the Brightbank school house tomorrow (Friday) night.

The wedding dance last Friday night at Holborn drew a crowd, it is said that numbered well over 300.

Mr and Mrs T Graden were the hosts to number of friends at a whist party at their home in Comet last Saturday night. Hal Laird and Geo Graden won the cents prize while Miss Sara McKinlay and Miss L Linburg won the ladies'.

The Women's Institute will meet at the home of Mrs R. M. Oatway on Wednesday evening, January 13, 1926. The meeting will commence at 8 o'clock sharp.

The new Concordia College in Edmonton is now completed and ready for the opening classes on Monday next. The dedication of the building will be held on Sunday, Jan. 10, and arrangements have been made to have a special train come out to Stony for the accommodation of those of this district who wish to return.

The Annual meeting of the Rosenthal S. D. ratepayers will be held at the school house on Saturday, January 9th.

A meeting of the Holborn U. F. A. is held for Saturday evening, January 9th at Holborn Hall for the purpose of electing officers for the ensuing year.

Revenue from auto licenses in Alberta during the year 1925 just closed has totalled \$955,000. The number of passenger autos totalled 52,350.

TENDERS  
FOR SCHOOL HOUSE

Sealed Tenders will be received by the Board of Trustees of Cottage Lake School District No. 4331 at the office of the Secretary-Treasurer up to noon of 12th of January, 1926, for the erection of a one roomed frame school building after Plan Number A14. Plans and specifications may be obtained from Secretary-Treasurer on payment of a deposit of \$5. Plans must be returned within 24 hours, and deposit will then be refunded. A marked cheque for five per cent. of the amount of tenders should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.

Note: Work to start not later than May 1st, 1926. Bidding to be completed by August 10th, 1926.

P. G. Cayrol,  
Notary Public, General Dist. 31 miles  
H. L. KINMAN,  
Secretary-Treasurer.

##### SPORTING NOTES.

Eric Heichen has been elected Captain of the local hockey team.

Spree Grove hockeyists got a rude jolt at the local rink on New Year's day when Eric's bunch of rubber chasers handed them a decisive trimming by the score of 8 0. It was found after the game that there were several bad dints in the ice probably caused by a couple of the Grove players who seemed to have the perpetual habit of capsizeing backwards.

#### Stony Beats Duffield. Score 4-2. Heichen Stars.

The Duffield hockey team were the guests of Capt Heichen's gang at the local arena on Sunday and were sent back home with a 4-2 defeat.

The game was exceptionally fast throughout with the locals having the edge on the play for the largest part of the game. The Duffielders were fast on the blades, but did not have the guts to keep up the pace while the locals had a full string of relief men and went at top speed throughout.

The scoring opened in about 2 minutes from the start when Sam scored on a pass from Chesser. Eric scored another a few minutes later after a fast solo rush down the left boards and the goal tender had no chance with his hot drive. Chesser and Ulmer scored Stony's other goals while Duffield found the new local goal a tuff proposition to beat and the two goals that did beat him were well-earned.

Goal, Reg— Defense John Miller and Joe Ulmer, Fwd, Chesser, Zucht and Heichen. Subs—Moyer, Oatway and Umbach.

A large delegation of local hockey fans attended the big hockey match in Edmonton on Monday evening when the Eskimos won from Calgary by 3-2.

Hockey practices every Monday, Wednesday, Friday and Saturday nights from 7 to 8 p. m.

Stony Plain hockeyists play Duffield at Duffield on Sunday, January 17.

A local Curling rink skipped by L Robbins motored up to Wabamun on the holiday and played two games with a team there. Stony won the first game by the score of 10 to 9 but lost the second by 16 to 10 thereby losing the round by 5 points.

#### New Members For Pool.

A total of 5,192 new members have been added to the Wheat Pool of the province during the year 1925, thereby adding a total of 504,000 acres to the pool.

#### Here and There

Basking in brilliant autumn sunshine, the coast of British Columbia offers a striking contrast to the severe winter weather already making itself felt in other parts of Canada. On the Coast, golf courses are crowded, the scene is dotted with figures of bathers taking their daily dip, and pleasure craft still ply the waters.

One hundred thousand dollars' worth of Black Fox puppers were shipped to Antwerp on the Canadian Pacific liner "Melita" recently. In specially built cages they will be conveyed by the Dominion Express across Europe to the farm in Switzerland where they will form the nucleus of a fox-breeding establishment.

Another instance of foolhardiness. A recent report from Hull is to the effect that an automobile, travelling at high speed, crashed through both gates at the Chelsea Road level crossing just as they were being lowered to stop traffic so that a light engine should pass. The automobile smashed its way over the tracks barely two feet ahead of the locomotive.

Arthur Edward Shave, in the employ of the Canadian Pacific Railway since August-18, 1908, when he was appointed clerk in the office of the Treasurer, has been appointed assistant treasurer of the company. Mr. Shave became assistant chief clerk in the office of the Treasurer in 1916 and was promoted Chief Clerk in 1919.

The apple is a typical Canadian fruit and among the finest grown in the Dominion. It is incomparable as a Christmas gift for friends and relatives in Great Britain. In order to facilitate shipment, the Dominion Express Company are offering special rates. Standard boxes containing about 150 and standard barrels holding about 375 will be sent from Quebec or Montreal up to the close of navigation to any station on a railroad in Great Britain or Ireland at a cost of \$3 and \$6, respectively.

To perpetuate the memory of the late P. Alexander Peterson where engineers in this part of the country gather, a portrait of the famous engineer, done in oils by the late Robert Harris, Canadian artist, is to be hung in the Engineering Institute on Mansfield street. The late Mr. Peterson, former engineer of the Canadian Pacific Railway, took a leading part in the railway construction in Eastern Canada during the latter part of the last century.

According to a report just issued from Canadian Pacific Railway headquarters, an average of one instance of gross carelessness on the part of automobilists every seventeen days is the record during the last three years and two months in connection with level crossings in New Brunswick, Quebec, Ontario and the Algoma districts. These instances number 62 from September 1, 1922, to October 31 last, or a period of 4,187 days. They resulted in injuries to 55 persons, of whom two died.

Creation of a new industry in Western Canada covering a product which is now imported into this country to the value of about five million dollars annually is foreshadowed by the samples of hemp now on display at the Windsor Station. According to G. G. O'Malley, Development Engineer, Canadian Pacific Railway, Mr. O'Malley stated that considerable work had already been done in the West of Canada towards the creation of such an industry. Efforts to promote hemp have been made in recent months and there is no doubt that fine stands of hemp can easily be grown in certain districts.
